

Marouane Ennebly

Product Designer

Senior Product Designer with 7 years of experience building digital products from 0 to 1. I've worked with enterprise clients, shipped AI-powered experiences, and taken products to thousands of real users. I care about work that actually lands.

Morocco, Casablanca

Experience

Independent Product Designer

2026 – Present | Casablanca, Morocco

Redesigned the live shopping experience for HSE, full prototype and component system delivered. Currently building Sukoon, an AI-powered mental health app for Muslim communities, and CrewPave, a satellite-based asphalt calculator for construction teams.

CogniteX — Senior product Designer

2024 – 2026 | Casablanca, Morocco

Designed Adam, a conversational AI assistant embedded in enterprise client websites to handle inquiries and appointment booking. Sole designer responsible for UX strategy, conversational flows, and interaction design.

Leyton — Senior product Designer

2022 – 2024 | Casablanca, Morocco

Embedded within a consultancy serving clients across 17 countries, designing internal tools that helped consultants work faster and smarter. Key projects included Xtra, a cross-selling platform built from research through MVP to help consultants identify client eligibility across multiple products; Stargate, an AI-powered search tool that matched consultants to the right tools for specific use cases; and Leyton for Me, a shared document platform for consultants and clients. Also contributed to the Leyton design system, built Chrome extensions for internal use, and mentored a junior designer.

V12Software — UI/UX Designer

2020 – 2022 | Casablanca, Morocco

Designed websites and digital assets for car dealerships across the US market. Later contributed to V12 360, a cloud-based platform that centralized everything dealerships needed — website builder, branding, ad creation and publishing — into one automated tool, replacing a previously manual process.

IDEAPLUS SARL — Freelance UI Designer

2017 – 2020 | Casablanca, Morocco

Worked as a design generalist for the official Moroccan distributor of major European brands including Dyson, Brabantia, iRobot, FoodSaver, and Laurastar. Designed and built the company website in WordPress, created 3D product visuals, and produced digital assets across campaigns and product launches.
